

NAV CANADA

Electronics Technologist Trainee – Technical Operations CNS Dorval, Québec IRC66060

Join a team of technologists who do much more than work with leading-edge Air Navigation Service (ANS) technology. In our team, you'll make a difference in air navigation safety. Our skilled Electronics Technologists work every day with some of the most advanced equipment and systems in the world.

Electronics technologists support and maintain the critical systems required to keep air traffic moving safely and efficiently. It takes a team effort across Canada to keep navigation, surveillance, communications, airport screening (CATSA) and air traffic management systems up and running under all conditions.

Become a member of the NAV CANADA Technical Operations team. We offer career-long training on advanced equipment; a full range of opportunities as you gain experience; competitive salaries; an attractive pension; and benefits that are among the best in the industry.

In order to apply for a career at NAV CANADA as an Electronics Technologist, you need to have these basic requirements:

- a secondary school diploma and a recognized diploma in an Engineering Technology program
- a valid driver's license
- a passport or the ability to obtain one, and you must be willing to travel.
- ability to lift and move heavy equipment

Language requirements :

- Bilingual

Beyond the basic requirements, we're looking for people who:

- are good communicators,
- enjoy working in a team environment,
- have a customer service focus
- are creative thinkers, have the ability to problem solve and make decisions, and
- understand NAV CANADA's core business and focus on safety.

You do not require previous experience in the aviation sector.

How to apply:

Please apply via our website, before **January 15, 2017**:

<http://www.navcanada.ca/EN/Careers/Pages/default.aspx>

*NAV CANADA will provide you with a training salary that ranges from approximately **\$41,040 to \$54,317** which is based on qualifications and experience. Once you successfully complete your training, you move to the **\$64,309 to \$85,211** range, with increases as you gain experience and move through classification levels.

Successful candidates must meet the security requirements of the position and be legally entitled to work in Canada.

NAV CANADA is committed to building a skilled, diverse workforce reflective of Canadian society. As a result, it promotes employment equity and encourages candidates to indicate voluntarily on their application if they are a woman, an Aboriginal person, a person with a disability or a member of a visible minority group.

NAV CANADA is committed to developing inclusive, barrier-free selection processes and work environments. If contacted regarding this competition, please advise the interview coordinator of accommodation measures you may require.

We thank all applicants for their interest; only those selected for an interview will be contacted.
